

Sector: Automotive
Area: 330sqm
System: Altro PU SL (4mm)
Colour: Cloud Grey

Quickset resin flooring Ltd were drafted in to provide a heavy duty, seamless solution on behalf of a large well known car manufacturer. The existing substrate was diamond ground, substrate repairs were carried out and a full 4mm self levelling PU system was installed.

The system will provide durability and chemical resistance while providing a scratch resistance flexible finish. The solution provided an aesthetically pleasing finish while complying with strict health and safety requirements and providing the slip resistance required. The solution is perfect for high impact areas and vehicular traffic.

This system is designed:
Suitable for large industrial areas and suitable for areas such as garages, hangers, engineering and manufacturing.
