

Sector: Retail (Road Markings)
Area: 25sqm
System: Flowcrete Deckshield Rapide Linemarker (MMA)
Colour: White

Did you know that we can also provide a number of solutions for external road marking and area marking. Quickset resin flooring were contracted to provide new zebra crossings for a well known retailer.

For bonding strength, durability, skid-resistance and UV stability, MMA is the number one option for this type of installation. Flowcrete's deck shield rapide linemarker is an MMA based solution which can be used for parking bays, roadways, loading bays and more! This small area was completed in just a few hours with the ability to fully cure ready for full vehicular traffic in less than 2 hours.

Other Standard Colours available in this system:

Colours are available from a wide range of options from the RAL chart. Bespoke colours are available at a premium.

Please note that due to a number of factors - including your monitor's brightness, contrast and colour depth - the colours shown on screen may differ from those physically applied.
